Art Unit: 2876

1. Applicant's response filed 6/23/06 has been considered.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 10,11,16,19,20 remain rejected under 35 U.S.C. 103(a) as being unpatentable over DeFabio 6,250,549 in view of Collins 6,061,681. DeFabio discloses a system in which a memorabilia kit is sold. It is disclosed that the memorabilia kit includes a captured image (photo) and a signature of the person imaged (autograph) (col 3 lines 1-10). It is disclosed that there is appropriate data related to the "signing" event stored in a memory to be provided to the purchaser, including time when the signing took place and any particular "affiliation" of the signature (col 4 lines 51-67). DeFabio does not disclose the networked search engine as claimed. Collins, as seen in the previous Office Action, discloses a method and appropriate apparatus for accessing photographs of individuals through use of a personal computer including a display over a network connected to at least one local server and a second local server (fig 1A), which contains information requested at the personal computer in a database on the local server. The user of the system inputs information to search for preferred results. It would have been obvious to a person of ordinary skill in the art at the time of the invention to use the search engine of Collins to find signing events as in DeFabio. This would allow a user of the combined system to rapidly locate a desired signator.

4. Claims 1-9 remain allowed.

5. Claims 12-15,17-18 remain objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art at the time of the invention, in conjunction with ALL the other limitations of the claims, the user selecting a time designation of a desired photograph, viewing the photograph and causing a print of the photograph as in claims 1-10; the purchase of a second quality of the selected photograph as in claim 12; selecting a name to which the public figure is to address the autograph as in claim 13; choosing from a pre-approved selection of messages for the public figure to write with the autograph as in claim 14; providing an indication that a portion of the purchase will be donated to charity as in claim 15; providing a receipt indicating tax-deductible amount as in claim 17; and the selection of a specific charity as in claim 18.

7. Applicant's arguments filed 6/23/06 have been fully considered but they are not persuasive. Applicant argues that there is no suggestion within the DeFabio and Collins references to suggest selling of photos. The examiner respectfully disagrees. DeFabio is specifically concerned with selling of memorabilia kits. This combined with the searching for photographs of Collins, along with that knowledge generally available to one of ordinary skill in the art, suggest selling photos which were searched for.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
